WHAT HAPPENS

Participants name the hardest resistance they have faced, then learn what resistance is: a predictable, natural, emotional response that lives in everyone.

They diagnose real resistance through four lenses: process unclear, relationship threatened, vision missing, speed wrong. Then they draft the one sentence they will actually say and pressure-test it in pairs.

The resistance plan for the live change gets written in the room.

WHAT CHANGES

- Resistance reads as information instead of defiance
- Leaders acknowledge before they argue
- Projects land on time because the pushback was planned for
- One sentence per resistor, ready to say

HOW WE MEASURE

The team leaves with a written action plan, each item tied to a name and a date. Thirty days later we check which items moved and report that back to the sponsor.

HOW IT FITS WHAT YOU HAVE

Attaches to a named change initiative. Pairs with Lead the Endurance, where it runs as the Patience Camp block. Choose Handle Resistance Naturally when the team already holds Naturally assessments.
